

Artificial Intelligence Legal & scientific implications

**Freedom of thought:
Is it in Jeopardy?**

DIPARTIMENTO DI
SCIENZE GIURIDICHE
E POLITICHE

DIPARTIMENTO
DI SCIENZE
INGEGNERISTICHE

Conference

February 15th, 2024 – 3,30 pm

Aula Plinio - Via Plinio, 44 - Roma | Università degli Studi Guglielmo Marconi

Opening Greetings

ALESSIO ACOMANNI
FIAMMETTA SALMONI
RAFFAELE CHIARELLI
GABRIELE ARCIDIACONO
ARTURO LAVALLE

Chair Person

LUCA LUIGI MANUELLI

Speakers

MARCELLO CONDEMI

Intelligenza artificiale e pubblicità ingannevole

FRANCESCO GASPARI

Regulating by AI: administrative and constitutional constraints

FABIO ORECCHINI

The future digital, energy and mobility ecosystem

FRANCESCO SCARCELLO

AI: under the hood

FATOS SELITA

Artificial decisions? Exploring how much AI is in our decisions

VALENTINO VESCIO di MARTIRANO

Explicit or implicit objectives underscores through AI systems can operate according to explicit human-defined objectives or to implicit objectives

FRANCESCO ZAMPOGNARO

5G technology and beyond for enhanced applications, intelligent networks and future verticals
